DRILLING FLUID SOLUTIONS

HEATH DITCH MAGNETS

Allow us to introduce to you the state of the art in ditch magnets for the drilling industry.

The Heath Ditch Magnet is a far cry from the old brick style ditch magnets. The Heath Quick Clean design has more debris collection surface area than any ditch magnet product on the market.

The Heath Ditch Magnet utilizes a flow-through, multi-stage design for less restriction and greater exposure of the drilling fluid to the separation magnets than other multi-element ditch magnet products.

The Heath Ditch Magnet uses the highest quality Rare Earth Samarium Cobalt magnets available. The maximum operating temperature of 350°C / 662°F and the low reversible temperature coefficient of Samarium Cobalt magnets ensure maximum magnetic field and separation action no matter how hot the drilling fluid may be.

With the high spread rates in today's drilling environment you simply cannot afford not to use the best drilling fluid separation product. The best product for solving all your ferrous solids separation applications is The Heath Ditch Magnet.

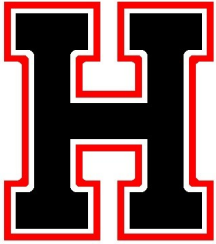

• Superior Design

- Rare Earth Samarium Cobalt Magnets
 - 350°C / 662°F Maximum Operating Temp.
- AISI 316 Stainless Steel Housings
 - Other Housing Materials Available On Request
- Quick Clean Design Using Heath MagBars™
 - MagBars Permanently Attached To Frame
 - To Clean Simply Pull MagBar Frame From Tubular Housing, Rinse & Reinstall
- Modular Design Allows For Attaching Two Or More Units Together For Large Separation Jobs

• Options

- Standard 5 Element Design
 - HDM-512 Has 5 MagBar Elements
 - Measures 8" x 8" x 12"
 - HDM-518 Has 5 MagBar Elements
 - Measures 8" x 8" x 18"
- Custom Designs To Match Your Ditch or Shaker
 - You Choose The Housing Material
 - Quick Clean Design Using Heath MagBars

HEATH ENERGY PRODUCTS

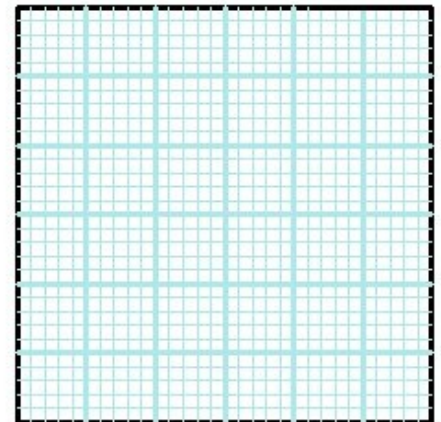

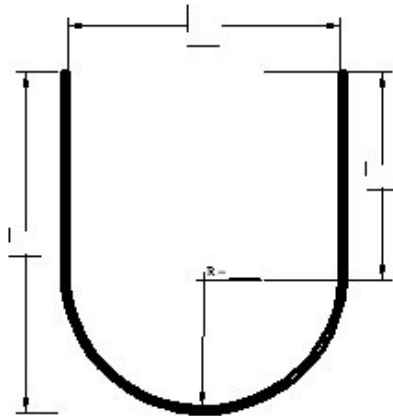

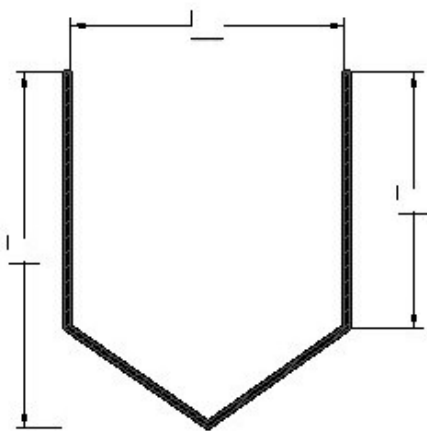

DRILLING FLUID SOLUTIONS

THE HEATH DITCH MAGNET

- REMOVES FERROUS DEBRIS FROM THE MUD
- MOUNTS IN DITCH, SHALE SHAKER OR DIVERTER
- MODULAR AND VERSATILE
- STANDARD MODELS OR CUSTOM DESIGNED

HEATH P/N	HEIGHT	WIDTH	LENGTH	WEIGHT
HDM-512	8" 200 mm	8" 200 mm	12" 300 mm	30 pounds 13.6 kilograms
HDM-518	8" 200 mm	8" 200 mm	18" 457 mm	40 pounds 18.2 kilograms

For a quote on custom fit Ditch Magnet applications fill in dimensions below corresponding with the geometry of your ditch, or sketch & dimension in the area provided and send to your HEATH representative.
